20 MOS.

COOPERAGE
NEUTRAL OAK

TOTAL ACIDITY
6.4 g/L

pH
3.5

ALCOHOL BY VOLUME
13.3%

PRODUCTION
600 BTLS

NOTES

Producing a Cabernet Sauvignon isn't something we take lightly. It's synonymous with the most sought-after, California wines in the world. However, our approach to the varietal is different than you'd come to expect. This wine is intended to express its site and varietal, not a preconceived notion of what Cabernet Sauvignon is "supposed to" taste like.

The wine went through a short 2-day cold soak before it began fermentation, spending 14 days on the skins. When it was dry, we pressed it off into neutral oak barrels for secondary fermentation followed by extended 20 months of sur-lie aging in barrel.

bay leaf, blackberry, iron

THE VINEYARD

Warm Springs Ranch is legendary vineyard hiding in plain sight. It has been at the core of our DORIS Cabernet Sauvignon since 2018. These seven acres of Cabernet Sauvignon planted in 2020, is located along the Sonoma Creek on Warm Springs Road in Glen Ellen. this site has been organically farmed since the route stock went in the ground.
